

Tata Projects builds India's first Smog Tower in Delhi

~Smog Tower inaugurated by Mr. Arvind Kejriwal - Honourable Chief Minister of Delhi~

Mr. Arvind Kejriwal, Honourable Chief Minister of Delhi inaugurating Tata Projects' constructed smog tower

New Delhi, Aug23, 2021: [TATA Projects Limited](#), one of India's fastest growing and most admired infrastructure companies, today announced that India's first smog tower built by the company has been inaugurated by Mr. Arvind Kejriwal - Honourable Chief Minister of Delhi.

The 24-metre-high smog tower at Connaught Place - one of the biggest commercial centres in Delhi is based on a downdraft air-flow model. The smog tower's 40 huge fans will suck air from the top of a special type of canopy structure and release clean air filtered through novel geometry filters.

Mr Sandeep Navlakhe, Vice President & BU Head - Buildings, Tata Projects Ltd,said, "Tata Projects Ltd is proud to have constructed the nation's first smog tower thereby bringing this technological solution to India. This solution will hopefully reduce India's urban air pollution thereby improving the lives of citizens. Large areas of cities can be covered if such smog towers are strategically placed at densely populated urban locations. We are prepared to offer our expertise and experience in setting-up more such smog towers across Indian cities so that citizens can breathe cleaner air."

The Delhi Pollution Control Committee was the nodal agency for the smog tower, while technology has been developed by experts at the University of Minnesota, and IIT-Bombay and IIT-Delhi were technical advisors for the project.

About TATA Projects Limited

[TATA Projects](#) is one of the fastest growing and most admired infrastructure companies in India. It has expertise in executing large and complex urban and industrial infrastructure projects.

TATA Projects operates through its four Strategic Business Groups (SBGs) namely Industrial Systems SBG, Core Infra SBG, Urban Infra SBG, and Services SBG.
